

This Autumn term, our main topic is transport. We shall be looking at all different kinds of transport along with its history.

In literacy we are looking at books with familiar settings.

In numeracy we continue to cover all aspects of the maths curriculum – number and place value, shape space and measure, calculating and problem solving. We ensure that pupils use their growing mathematical skills to solve problems and apply them to everyday situations.

In RE our topic is ‘People Who Help Us.’ This will give the children an opportunity to think about how they can help others.

In Art and DT we are designing and making our own moving vehicles.

Class Two will have P.E on Mondays and Wednesdays. Please could you ensure children have their P.E kits in school on these days. Please do ensure that your child has their hair suitably tied back on days when they have PE. The same applies if your child does multi-sports.

You can continue helping your child by hearing them read their books regularly and by helping them to learn their spellings. They should be able to tell you what they have been covering in maths if you would like to support them in this area. Please ask if you ever have any queries about your child’s progress.
