RUMORS

Introduction to Cyber Bullying.

Did you know that Cyber bullying affects children all around the world? Unfortunately 38% of young people have been affected by it, with 26% being abusive emails and 24% being text messages! Worrying 28% of children do not tell anyone about the abuse.

An effective way to involve the reader!

Superb percentage use...

What is it?

Cyber bullying is where either a person or a group of people threaten you online. It is against the law to bully in this way and you could get in serious trouble if you got caught. You could get Cyber bullied by; emails, text or even online games! But remember if you do get Cyber bullied you must tell a trusted adult like a teacher or a parent - don't suffer in silence.

Great advice!

How can this affect you?

Although it isn't face to face and you can't feel pain it is still bad but emotional abuse stays in your head forever. We must fight back together.

How can you stop it?

You could; talk to someone you trust, block them and don't reply to them - it just encourages the bullies. ✓

ZIP IT

Keep your personal stuff private and think about what you say.

BLOCK IT

Block people who send nasty emails or texts.

FLAG IT

Tell someone you trust.

Do's and Don'ts

■ = Do's

- * tell someone about it.
- * keep the messages - don't delete them. ✓

■ = Don'ts

- * reply back from nasty emails.
- * stay quiet - suffer in silence. ✓

Conclusion

Cyber Bullying can ruin people's life. Don't do it; help them!

Remember - **LAUGH AT IT AND YOU ARE PART OF IT!** ✓

♥ An excellent report - you've included a range of facts in an effective way.
