

Class 1 - 13/7/20 Space

Can you prepare to launch a rocket into space? Count backwards from 10 back to 0 blast off. You could try 15 back to 0. Make yourself some number cards, putting them in order first 0-10 then count backwards

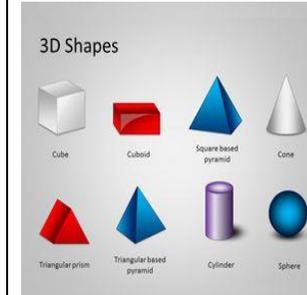

Make a space book. Find out 5 interesting facts about space. Write 5 simple sentences and draw a picture.

We read a book at school and it said the moon was made out of cheese. Is this true?

Sort your recycling into 3D shapes. They had tricky names to remember.

Make an alien/rocket/spaceship out of your recycling. You could make it a label.

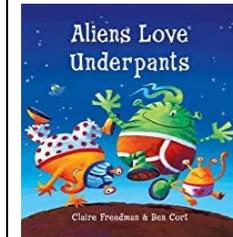

Is there a tree in your garden that makes a good space rocket? You could always look for one when you go on a walk, there are lots of great ones in Millfield Woods. I remember when I was little we had the perfect tree, I spent hours zooming around space on different adventures.

Go star gazing, there are lots of star gazing apps and websites that can tell you lots of interesting information.

Have you got any story books at home about space? Ask a grown up to read them to you. Are there any words on the page that you recognise? Who was in the book? Which was your favourite part?

Aliens Love Underpants
Man on the Moon

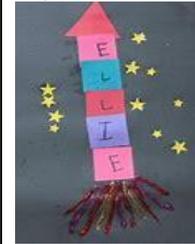

Do you have the story 'Whatever Next'? if not you could watch it on YouTube
You could pretend to be Baby Bear and go on an adventure to the moon. All you need is a box/washing basket, something to be a space helmet, some clean boots and an owl/different soft toy.

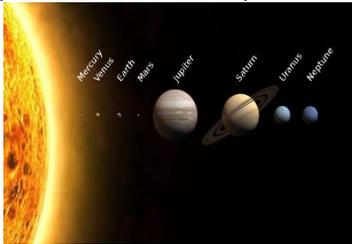

You could make a jetpack to blast you into space.

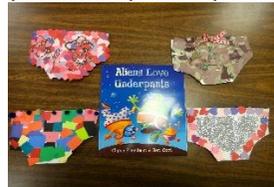

Can you write your name on some squares of paper and make a name rocket? Only using a capital letter for the first letter in your name.

Find out what the planets are called. Which do you like best and why?

If you have Aliens Love Underpants. Can you design your own pair of pants?

What colour would they be?
Would they have a pattern on them or animals? Do you think the aliens would try to pinch them?

You could make some fruit rockets

There are lots of space activities on Twinkl.
